#### New Beaver Management Tools You Can Use

Progressive beaver management continues to expand due to increased knowledge and data supporting the use of nonlethal beaver management. Mike Callahan will present multiple practical tools developed over the past year that will help you to advocate and implement nonlethal methods to successfully resolve beaver-human conflicts. He will also explore how the Beaver Institute plans to scale these Best Management Practice across North America and Europe in the coming years.

Mike is the founder and President of the Beaver Institute Inc. which was established in 2017. He also has over 20 years of practical experience in beaver management with his company Beaver Solutions LLC. He has resolved over 1,600 human-beaver conflicts with innovative water control devices (flow devices) He will share that wealth of experience during this talk.
